

Ireland and Irish America: Culture, Class, and Transatlantic Migration, Kerby A. Miller, 2008

Between 1600 and 1929, perhaps seven million men and women left Ireland and crossed the Atlantic. Ireland and Irish America is concerned with Catholics and Protestants, rural and urban dwellers, men and women on both sides of that vast ocean. Drawing on over thirty years of research, in sources as disparate as emigrants' letters and demographic data, it recovers the experiences and opinions of emigrants as varied as the Rev. James McGregor, who in 1718 led the first major settlement of Presbyterians from Ulster to the New World, Mary Rush, a desperate refugee from the Great Famine in County Sligo, and Tom Brick, an Irish-speaking Kerryman on the American prairie in the early 1900s. Above all, Ireland and Irish America offers a trenchant analysis of mass migration's causes, its consequences, and its popular and political interpretations. In the process, it challenges the conventional 'two traditions' (Protestant versus Catholic) paradigm of Irish and Irish diasporan history, and it illuminates the hegemonic forces and relationships that governed the Irish and Irish-American worlds created and linked by transatlantic capitalism.B
