

The Kraken Wakes, Penguin Books Limited, 2008, 2008, John Wyndham, 240 pages, 0141032995, 9780141032993

It started with fireballs raining down from the sky and crashing into the oceans'™ deeps. Then ships began sinking mysteriously and later sea tanks'™ emerged from the deeps to claim people . . . For journalists Mike and Phyllis Watson, what at first appears to be a curiosity becomes a global calamity. Helpless, they watch as humanity struggles to survive now that water'™ one of the compounds upon which life depends is turned against them. Finally, sea levels begin their inexorable rise . . . The Kraken Wakes is a brilliant novel of how humankind responds to the threat of its own extinction and, ultimately, asks what we are prepared to do in order to survive.
